

IS YOUR CANDIDATE DATABASE COLLECTING CYBERDUST?

Let us help you monetize your unused resumes.

HOW THE RECRUITER PARTNERSHIP WORKS

- Send us your daily feed of your jobs and jobseekers.
- We will create daily behavioral job alerts for your jobseekers with up to 3 of your jobs at the top positions at no cost to you.
- We will then match our backfill jobs to the search criteria of your jobseekers.
- Our jobs are comprehensive in scope, geography and number.
- Our strict behavioral matching algorithms closely align results to jobseekers keyword searches which will evolve over time based upon our crowdsourced results.

HOW ARE WE DIFFERENT

- Our user flow eliminates unnecessary and unwanted distractions that only interfere with the goal of helping jobseekers find the best jobs. We do not have a signup form, lead generation or other ancillary interstitial products that distract the jobseekers from viewing and applying to jobs.
- Our jobseeker focused experience sorts the jobs based upon our strict matching algorithms rather than the best rate.
- Our philosophy is to build trust with the job seekers and to seek the highest engagement possible with them.
- All jobs in our job alerts are sponsored and as such, all clicks will generate revenue to be shared with our partners.
- Your jobseekers will remain yours and we will not convert them to our users.
- We pledge to our partners that we will not develop a competitive sales team and will not use the data we generate to the detriment of our partners.

ABOUT US

- Seasoned professionals with over 30 years experience in the online recruitment and email alerts space .

PARTNERSHIP APPROACH

- Our program has no cost to you.
- We share with you on a monthly basis 35% of all net revenue generated from your jobseekers.
